Got a skeleton closet we've got a dreaded disease  
I been looking high and low for my skeleton key  
And they say that pride well it is the chief of sins  
Well i know all of his deputies i'm well acquainted with  
them  
Yes she walks on water  
Yes yes she walks on sky  
Yes yes she walks on roses  
Yes yes she walks on by  
She got a brand new ache she got a brand new crutch  
Got a brand new scar take a lifetime to cover it up  
And this ground is barren honey this place was dry  
That's a long long time ago 'til i looked in your eye  
Everybody got a secret deep under the ground  
You can take it out once in a while when there's no one  
around  
You can grab for it all yeah with your list of demands  
Or you can come as a small child yeah with your empty  
hands
