I the machine for destruction,  
I the machine for creation,  
I'm real the power explosion.

I feel that I shall,  
Always stay in fight.  
And let everyone,  
Speak to me, that I am a fire.

Yes I the Fire,  
But only in Fight,  
I understand who I am.

I the machine for destruction,  
I the machine for creation,  
I'm real the power explosion.  
And again there comes night,  
My nerves are similar to steel ropes,  
I get ready for fight,  
Up to last a bloody drop.

I the machine for destruction,  
I the machine for creation,  
I'm real the power explosion.

Thirst for fight it's my life,  
I feel rush of forces.  
The Fiery liquid it is my blood,  
I feel it's in my muscles.
