Nobody knows where the edge of knowledge marks  
No one will ever enter the realm of subconsciousness  
Just trying to show how intense is nakedness  
And how futile can be complexity

Do really the blind leads the blind?  
Unveiling from the nonsense voices  
Too busy to give not worth meanings  
To what seems to be the reaching key

Shut down words to hold back the pure  
Inner screams from this living lure

Intense drama fills the hour  
Pathetic rhymes just to show what's ours

Flowing pain painted as red  
Realizing you're as good as dead!  
Too busy to give not worth meanings  
To what seems to be the reaching key

Shut down words to hold back the pure  
Inner screams from this living lure

Collapse for superstition of truths  
Terminal contradiction thought disease  
Self-killing action in mind control  
Is the ultimate screen on the calling of my echo
