Ever since I held a pen with my left hand
Ever since I was a man baby I've been told
Your good for nothing
Even while my style was neglected
I stood tall and unaffected
Cause in my soul I stood for something
And I remember being spit in the eye
Must admit shit was about to get violent,
But I stayed silent
I know my day will come out with the last laugh
For those who died or to blind to find their own path

They'll be singing fire while I'll be signing autographs

Put this,
Put this is your pipe and smoke it
Hold it in until your throat gets wet
And the eyes in your head lose focus
Truth is,
People now a days are ruthless
Rather see you fail then prove shit
Can be done
Well their the ones who make excuses
I worked hard found hope,
Lost weight smoked dope
While the other got paid I stayed broke,
What a joke
No one can say that they
Are living better than they
So here you get off of my cloud
I'm the one they sent to control this crowd
Guaranteed to put smiles on faces
As of my control on a regular basis

You can kick me down while I'm on the ground
Yeahhh yeah
I'll be coming back for another round
Don't fuck with the style I'm bringing
If I'm going down then I'm going down swinging
Full speed ahead till I crash and burn
Full speed ahead till I crash and burn

Ever since I held a pen with my left hand
Ever since I was a man baby I've been told
Your good for nothing
Even while my style was neglected
I stood tall and unaffected
Cause in my soul I stood for something
And I remember being spit in the eye
Must admit shit was about to get violent,
But I stayed silent
I know my day will come out with the last laugh
For those who died or to blind to find their own path

They'll be singing fire while I'll be signing autographs
