I feel my time it is wearing thin
Here comes a song man i hope it brings a little
Joy to your life cause these words i write
Go out to young and old every man and wife
I come before you with a little token of
My gratitude speaking words unspoken
Positive thoughts about a life so very
Complicated when you're temporary

This ain't a lesson on how you should be livin'
How to make a dollar or get all the women
This is a melody for all my friends and family
A word of thanks for all the loving that they've giving
to me
I'm letting you know i feel the same way
It's your lovin' that could get me through the worst
day
Well you can crank up the music and be well supplied
But a party ain't a party till your friends arrive yeah
So find a friend put your arm round their shoulder
Grab a girl and hold her...we're getting older
Let's go ahead and laugh at all of our mistakes
Damn it's good to see your face just

Chorus

One more time for old times sake

I'll always give you my...my hand to shake (2x)

Let's have conversations bout the past thinking when
was the
Last
Time we spent you know we cared less if our days went
fast
Let's reminisce about the ones we've kissed
And mention all the friends we both have missed
Flashback to the road trips in the summertime
Listening to sublime taking our time while the bass line
Shakes the rear view there's no need to speed
Cause my friend with weed is a friend indeed
Partying down the beach in a hotel room

There was no need to sleep cause the sun would soon
Go on and meet us and greet us as we sat there
waiting
Listening to the sounds of our young hearts breakin'â

With the crashin'â waves we knew weâ'd go our
separate ways
Times they change like stories never told the same
To all my friends old and new thereâ's nothing to it
Live this day like itâ's your last letâ's do it

Chorus

Maybe my time has com
Maybe this breath i take shall be my final one
Or maybe my dying day will come when i am old and
gray
But either wayâ...i pray
Oh thank the lord thank the lord thank the lord for
every day
You get
Cause your love iâ'll always find in the corner of my
mind
So donâ't forget no donâ't forget

Chorus

Maybe my time has come
Maybe this breath i take shall be my final one
Or maybe my dying day will come when i am old and
gray
But either wayâ...i pray
Oh thank the lord thank the lord thank the lord for
every day
You get
Cause my love youâ'll always find in the corner of my
mind
So donâ't forget no donâ't forget
