I walk in a room and bust a move  
The room goes cold because I'm cool as ice  
I moonwalk over I'm in your sights  
I got you hooked you're mine tonight

Fire under my feet  
My shoes they just want to dance  
I slither like a snake and you're choking on the venom  
I'm a natural mover I'm moving in and out your mind  
I've got you hooked, you're mine tonight

My hair says party, respect is the name of the game  
I'm cutting the shapes, I'm moving like I'm catching  
disease  
No need to talk, I say it all in my walk  
I slither like a snake and you're choking on the venom
