Somebody please show me the way to skull heaven
I'm ripping out my hair, got to get there, I'm ready to
rock
Eternal night is what I dream about
The Reaper's on his way
I'm ripping out my hair, got to get there I'm ready to
rock

(Chorus)
Skull Heaven

They're telling me to take it easy on my medication
I need to know where you go, where you sell your soul
The time has come, I'm the chosen one
There's thunder filling the sky
I need to know where you go, where you sell your soul

(Chorus)
Skull Heaven

Every single morning I wake up craving the poison
I smoke a tab, bang my head, yeah baby I'm ready to
rock
Heavy metal through the stereo
My mind's going berserk
I'm ripping out my hair, got to get there, I'm ready to
rock

(Chorus)
Skull Heaven
