I am looking for you
A little out of time
Like the moment we met
When I knew you'd be mine.
Could I really be near you
And hear the things you say?
Could I ever believe you would stay?

So I'm waiting for the night
To turn away from the light
When I need to keep you on
My mind.
Yes, I'm waiting for the night
To feel you by my side.
When I need you most
I'm left behind.

At the end of the day
When everything is quiet,
I know I have to leave you
To dreams where you can hide.
I remember the sunshine
To lighten up my life.
Now I'm waiting for you -
Give me a sign.

So I'm waiting for the night
To turn away from the light
When I need to keep you on
My mind.
Yes, I'm waiting for the night
To feel you by my side.
When I need you most
I'm left behind.

Everything that I try,
No matter what I do,
Brings me back every moment
That I would spend with you.
And I live in a daydream,
The memory of your touch

And I wonder how long,
I wonder how much.

So I'm waiting for the night
To turn away from the light
When I need to keep you on
My mind.
