"To Be Near You"

Visit "[To Be Near You](#)" on MotoLyrics.com

Are you just a habit
Or some kind of addiction
Can't seem to get you out of my system
What good you have done to me
Feels so stuck like glue
Turn the pages in my head. there's only you

I don't care
I would do anything to be near you
I would go anywhere to be near you

Am I truly hopeless
Am I be pathetic
Are you aware of my existence
Would you mean everything to me
If you spend a little time
Could you given to me with an ease resistance

Ahhh...

I would do anything
I would go anywhere to be near you
I would do anything, go anywhere
I don't care
I would do anything, anything, go anywhere
I don't care to be near you
Just to be near you
