I need a little favor, I want some of your flavor
Come fill the space between us
And let's drink another shot to feed us

There's a bottle pointing right at you
Bottoms up girl, you know what to do

Come on over baby I really need you
Touch me like you do girl I wanna feel you
Show me all your tattoos and drink my tequila
Come on take your clothes off you really need to
Baby do a sweet dance I wanna see you
Show me all your tattoos and drink my tequila

I dream about your bootie
Ya I can't wait until ya do me again
You, you know I know your weakness
So let's drink another shot to feed us

There's a bottle pointing right at you
Bottoms up girl, you know what to do

Come on over baby I really need you
Touch me like you do girl I wanna feel you
If you can read it, it's not the original one
Show me all your tattoos and drink my tequila
Come on take your clothes off you really need to
Baby do a sweet dance I wanna see you
Show me all your tattoos and drink my tequila

(I said taste it baby, drink it all baby haha!!)

Solo

Come on over baby I really need you
Touch me like you do girl I wanna feel you
Show me all your tattoos and drink my tequila
Come on take your clothes off you really need to
Baby do a sweet dance I wanna see you
Show me all your tattoos and drink my tequila
