I feel hungry girl, even though  
Even though I got plenty to eat  
And I feel thirsty now  
Even though, even though I got cool water to drink  
And I feel homeless girl, even though  
Even though Iâ€™m not sleeping on the street  
Everytime that I think of you and I  
It remind me how  
Our love is like a third world country  
Itâ€™s either all or nothing  
Reach your heart and pour in affection  
Thereâ€™s no meaning no crown  
One minute we talking bout our future  
Sounds good and thereâ€™s confusion  
We say there is hope for us  
But how can we survive  
I feel comfort girl, even though  
Even though me and you are at war  
And I feel cold sometimes  
Even though, even though your touch is always warm  
And I feel in prison girl  
Even though, even though I have the keys to the door  
Everytime that I think of you and I  
It remind me how  
Our love is like a third world country  
Itâ€™s either all or nothing  
Reach your heart and pour in affection  
Thereâ€™s no meaning no crown  
One minute we talking bout our future  
Sounds good and thereâ€™s confusion  
We say there is hope for us  
But how can we survive  
Our love is like a third world country  
Itâ€™s either all or nothing  
Reach your heart and pour in affection  
Thereâ€™s no meaning no crown  
One minute we talking bout our future  
Sounds good and thereâ€™s confusion  
We say there is hope for us  
But how can we survive  
I donâ€™t understand, how people can

End up in these circumstances, over and over again  
When we first started in love  
It makes no sense  
But then again some how I can Â...in this predicament  
Baby I would finish  
You say we still have a chance  
But how can we survive  
Our love is like a third world country  
ItÂ's either all or nothing  
Reach your heart and pour in affection  
ThereÂ's no meaning no crown  
One minute we talking bout our future  
Sounds good and thereÂ's confusion  
We say there is hope for us  
But how can we survive  
Our love is like a third world country  
ItÂ's either all or nothing  
Reach your heart and pour in affection  
ThereÂ's no meaning no crown  
One minute we talking bout our future  
Sounds good and thereÂ's confusion  
We say there is hope for us  
But how can we survive x 4
