Visit "[Captain Of Heaven](#)" on MotoLyrics.com

I hear in the distance the sound of your footsteps  
See all around me the signs of your hand  
Feel my heart tremble--I see you approaching  
I know deep inside you are not just a man

You have come  
You are here  
I fall to my knees as the  
Captain of Heaven appears

I hear in your voice the sound of authority  
See in your hand the sword of your word  
Feel my heart quicken--my questions are silenced  
I know deep inside I must only obey

The first time you invaded my soul  
I wondered, are you a friend or a foe?  
But I see you now
