Fields of white, skies of blue  
The fire is bright in the living room  
And I feel, baby, all we are is today

The morning news, as the coffee brews  
The record spins those happy tunes  
But all I feel, baby, all we are is today

So let those records play  
Lay with me, let the snow just melt away  
Cause right here makes a perfect holiday

Sleigh bells ring  
Go and let em sing  
Neighbors pass by with gifts to bring  
But all I need, babe, all is I want is here today

So lets those records play  
Lay with me, let the snow just melt away  
Cause right here makes a perfect holiday

Oh and some folks like a holiday on the beaches of LA  
Oh but I don't know what's better than just laying here  
together in our  
Sweaters watching snow melt away

Lets those records play  
Lay with me let the snow just melt away  
Cause right here makes a perfect holiday  
Yeah

Lets those records play  
Lay with me let the snow just melt away  
Cause right here makes a perfect holiday
