I hope you got fat  
I hope you got really fat  
Cause if you got really really fat  
You just might want to see me come back  
I hope you got fat

I don't care I don't care  
Ah how heavy how skinny  
I don't care I don't care  
Ah how heavy how skinny  
Just gimme gimme some some ah  
Some some something to love

A little extra weight could  
Never look no nicer on nobody else but you  
And I could use a little bit more to hold on to  
And if I get a fright in the middle of the night  
I'll cling to you

I hope you got fat  
I hope you got truly fat  
Cause if you got really  
FAT FAT FAT  
You just might want to see me come back  
I hope you got fat
