

## Violent Delight "Like Them"

Visit "[Like Them](#)" on MotoLyrics.com

Nobody ever tries to realise  
The truth behind all that lies  
They told Amber what to see  
What's wrong, what's right  
They give her thumb fights  
But we may never know (Never know)  
And we may never really care  
It doesn't't make a difference (Make a difference)  
So what? It sucks to be like them  
Everyone I knew tried giving up  
Without realising whos up top  
They told Amber what to see  
What's right, what's wrong  
They just want to be wrong  
But we may never know (Never know)  
And we may never really care  
It doesn't't make a difference (Make a difference)  
So what? It sucks to be like them  
I can't - You told me no  
I can't - You told me no  
I fight, just like everyone  
I fight, just like everyone  
I fight, just like everyone  
I just wanna fucking fight  
Nobody ever tries to realise  
The truth behind all that lies  
They told Amber what to see  
What's wrong, what's right  
They give her thumb fights  
But we may never know (Never know)  
And we may never really care  
It doesn't't make a difference (Make a difference)  
So what? It sucks to be like them  
But we may never know (Never know)  
And we may never really care  
It doesn't't make a difference (Make a difference)  
So what? It sucks to be like them
