If there's something you will make  
You'll have to take  
Your machine out of the dust  
To satisfy your lust

We fuck the greenies law  
Mad Bingo cracks will bleed  
They'll end on circular saw  
In Dead City we will meet

Alcoholic forces power  
Will take us higher  
You'll kill flower power

That is our desire

Silly poppers running wild  
Keep on smiling like a child  
When we scratch their face  
Oh, what kind of grace

Prudish girls in disco-fashion  
Enjoy peace, don't like any aggression  
But we all know, they're so mad  
Velbert is absolutely dead
