I was sleeping in a dark dusted subway  
And woke up in a dirty jail  
The first look into one piece of the mirror  
Fills my face with ugly pale  
The cop was right he gave me a coffee  
But what I need is only beer  
He told me about some fuckin' shit  
And that my end is near

Destructed youth - Destructed life  
Drinks and drinks make me fly  
But, I'm immortal - I'll survive - zombies never die

Destructed youth - Destructed life  
Brainkilling drugs will take me high  
They guess that is my funeral - there's no one left to  
cry

The Doc told me, I wouldn't get old  
My livers broken down  
But I only had a smile for what he told  
Hey Doc I'll get around  
Now I'm sitting again in that bar  
My eyes are going crossed  
I know the Devil pays my bill  
I'm drunken and I'm lost
