(Violent J)

There it is ya'll,  
take a look at that palace, hey, fountains of alizay  
It be amazing, devastating,  
out of control, wizard logo, on a gold flag pole  
Let's roll, front door, ring the bells we here,  
free beer, weed air  
I'm so glad to be there,  
We could tell they be smoking on something sonic  
I smelled it in the hallways, I'm always on it,  
asked the guard what that shit is...

(Anybody Killa)

"It's hizzard the Wizard"

(Violent J)

What he don't share like a big nerd?  
He was like..

(Anybody Killa)

"Fools get they gizzards chopped  
When asking around about the Wizard's crop"

(Violent J)

Then I thought, what you thinking?  
Was that ABK?

(Anybody Killa)

"Just stick to the hallway, ok, go away"

(Violent J)

At the Wizard's gates we all knocked  
And we walked all in  
Let the party begin, balling

(The Wizard)

Who dare come here to meet the big W?  
You're crazy, your boys are in trouble too  
I be the one like Big Daddy Wizard Kingpin  
Tell me what the..  
Fuck you thinking?

I blink and I set your, faces on fire  
Damn it, must be a faulty wire  
Well fuck, my voice thing run out again  
But you're still in terrible danger my friend

(Violent J)

Tin Man ran and dismantled the curtain  
It was just some fool in a Fuck Off shirt  
And it was salt in the game, we maintained the same

(The Wizard)

Hi, Shaggy, Stretch Nuts be the real name,  
or the Wizard if you want  
But it's all a front  
I been here 9 years, 8 days, and a month  
So I started this hustle, now it's getting me paid  
I got to admit I get laid with my own parade  
But a player like me knows what you want  
A player like me holds the magic blunt

The magic blunt?

(The Wizard)

The magic blunt  
I been saving it up, what, what  
All for a you fools are getting what you want  
Cause a player like me holds the magic blunt

The magic blunt?

(The Wizard)

The magic blunt  
I'm lighting it up, now what, what  
Mr. Lion "Yeah",  
you indeed of a hoe then blow, "What up dawg?"  
She's yours, or any other bitch you step to,  
don't let no rep go and intercept you  
Tin Man, it's your turn to hit the ganj  
"Nothing I don't understand"  
Your wish is for iron when you made out of steel  
But you already the hardest for real  
"Thanks"  
Scarecrow, my man, hit the dro  
"Some homies 2 smoke with me?"  
I know  
"I'm puffing but I ain't seeing nothing"  
What about the homies that's with ya,  
you saying they frontin?  
"But I love Tin Tizzy, The Lion, and J though"  
And they down with you for life, too  
"Oh"

And Violent J  
"Hey"  
Now it's your turn to burn  
Just hit that shit and the page we turn  
Just hit that shit and the page we turn  
Just hit that shit and the page we turn  
Just hit that shit and the page we turn  
Just hit that shit and the page we turn

(Talking & Coughing)

(Violent J)  
And that was it  
Next thing I knew I woke up in my very own bed  
Chillin'  
And that's, that's how it exactly how it went down  
Hope you liked it
