(Verse 1)

Another taste of you

You took a bite of me  
And now I'm left alone  
Trying to shake the disarray

You didn't know my name  
You didn't understand  
You didn't seem to try

You left me on my on my own  
With my own disarray  
You left me there to die

(Chorus 1)

What I needed was a friend  
You turned out to be something else  
But I still need you just the same (just the same, just  
the same)

You left me naked on the floor  
Humiliated to the core  
And I'm still screaming out for more

I hesitated for a while  
And then I swallowed all your lies  
I have become the lord of flies

(Verse 2)

Another piece of me  
Another lie for you  
And there I am afraid,  
And on my own without a clue

You didn't know my name  
You didn't understand  
You didn't seem to try

You left me on my on my own  
With my own disarray

You left me out to die.

(Chorus 2)

What I needed was a friend  
You turned out to be something else  
But I still need you just the same

You left me naked on the floor  
Humiliated to the core  
And I'm still screaming out for more.

(Bridge)

You smile inside  
When you watch me cry  
You smile when I just want to  
DIE  
DIE

To love with all your lies

(Chorus 1)

What I needed was a friend  
You turned out to be something else  
But I still need you just the same

You left me naked on the floor  
Humiliated to the core  
But I'm still screaming out for more.

I hesitated for a while  
But then I swallowed all your lies  
I have become the lord of flies
