It suddenly struck me  
When I closed my eyes  
Soon I'll be alone  
But some say love never dies  
You held me close  
Right through the storm  
You never left me  
You just kept me safe and warm

Hold me tonight forever  
Hold me and never let go  
I think of heaven  
Lord I know that you are waiting  
I'm going to keep on loving you  
I'm feeling lonely  
But I know  
I want to be with you  
But I know fate's never fair  
You give me strength  
In your darkest day  
Why did the angels  
Have to take you away

Hold me tonight forever  
Hold me and never let go  
I think of heaven  
Lord I know that you are waiting  
I'm going to keep on loving you

I'll hold my head up high  
Keep trying not to cry  
I'll put the past behind me  
Still got my memories  
Stories about you and me  
And one day we'll be back together  
I'm going to keep on loving you
