Striping, stripping, stripping  
Flesh away from the bone  
I'm laughing intently at you  
You're suffering and all alone  
Prepare for aggression  
Live out my fantasy  
The terror in your eyes  
I slice your fucking flesh  
Into tiny chunks  
Yet you are still alive  
Cauterize your open wounds  
Heart racing gasping breath  
You beg and plead for death  
You twitching in the corner  
My hunger increases now  
To taste the gift of life  
Blisters, scabs and scars  
You hope to die  
Blisters, scabs and scars  
They can't tell who you are  
From blisters, scabs and scars  
The blood is flowing freely  
Upon the rusted shank  
You start to defecate  
Convulsions twist the body  
Into a tattered form  
Your own tongue you have ate  
The deeds has ended quickly  
Your life has slipped away  
The pleasure was all mine  
I finally feel at peace  
The gore before my eyes  
It feeds my twisted fucking mind  
Blisters, scabs and scars  
You hope to die  
Blisters, scabs and scars  
They can't tell who you are  
From blisters, scabs and scars
