Oriental beauty lady of the night  
Enters my van we go to an isolated area  
No sign of civilization just her and me, alone  
Demonic lust takes over beaten to semi-consciousness  
Bound and gagged  
I move her into position lying face-down  
I spread her thighs her womanhood  
I forcefully plunder  
Fuck her! Rape her!  
Molest the whore!  
Pierced nipples severed clitoris feminine circumcision  
She will never orgasm again dirty whore!  
Sodomize the worthless bitch feel the build up throb  
inside  
Face her to your erect member uncontrollable  
ejaculation on her face splatters  
Razor's edge the incision to the larynx is performed  
For memories are eternal in a culvert lifeless she lies
