You say it cannot stand aside  
Because many people fight for life  
Plenty of lives in the breakaway  
Regions are your citizens

You only think about  
Dirty political  
Ambitions, condition  
Of military shit

Just hold your horses  
Just stop your troops  
No god. no victims  
Back-slapping fools and rules

More confrontation.  
Diplomats desperation  
Cold war widens out further still!

What is the basis of your false claim?  
Nothing: we fully support your government.  
Bullets: respect to the memory of forefathers.  
Assembly of nobility... no!

Sounds of sirens.  
You know what it means  
They will provide the first-hand administrative deal.

Just one more strife  
Just one more kill  
I trust this will fills your needs  
So turn the other cheek!

Hope I can  
Put my hands up slowly  
& shake your head. back-stabbing. slapping in the  
face!
