

## Virgo "Baby Doll"

It seems to me that you never had  
A place to lay your soul  
It seems to me when you raise your head  
I see these eyes of stone  
What can I do?

Could you tell what you really think?  
Could you light this fire?  
Do you need my helping hand?  
Do you believe in desire?

You find a way to push me down  
You bend my nerves,  
To be around with you

Cant' you see - I'm not your baby doll  
Cant' you see - I'm not your baby doll

Homeward bound to anywhere  
Nothing ever lasts  
You take your place, cause you have nowhere  
To go without a task
