I, I, will use you, hack you, strangle you  
I, I, will enter you, CD I  
I will, hackle you and hack you  
Press password, execute  
I will heal you

The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel

I, I, direct all the spells  
I hit and groove  
I got this urge to suck  
To fill this moment, scorn and spence  
I lean across towards the web  
Through the net  
Press and scorn

The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel

I, I, will use you  
Hack you, strangle you, enter you  
CD-I, press password  
Execute  
All the spells, using daydreams  
Through the net  
Press and scorn  
Press and scorn, check the time and re-enter

The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel  
The way you make me feel

The way you make me feel

What we have made is real

Open your mind and see

Turn and zoom until you see the final edge

Step into, mate! You<sup>1</sup>re right into the web!
