Have you read the papers and heard the s**t they say?
Everything I don't want to know, will we be blown away?
See, nothing really matters just who is f**king who
Nothing that affects our lives, nothing about me or you

Biased f**king bulls**t
No I don't give a s**t
Celebrity f**king Gossip
You are full of it
Right wing propaganda
You give me f**king doubt
Bleeding heart agenda
What I f**king read about

You sit and watch the drama as they numb your brain
They take you f**king mind and flush it down the
f**king drain
If this is what is news then I don't give a s**t
Just let them be clueless, just let me abort the skit

Biased f**king bulls**t
No I don't give a s**t
Celebrity f**king Gossip
You are full of it
Right wing propaganda
You give me f**king doubt
Bleeding heart agenda
What I f**king read about
