[Virtuoso]

You told the soldiers fight for god got them  
slaughtering kids  
now they sick taking naked flicks at Abu Ghraib  
this is, a step back, not evolution for the torturer  
let's fight for resolution revolution through a orchestra  
there's more to the, regime change than democracy  
hipocrisy so the elite can keep their monopoly  
why so few control so much of the wealth  
how you gon' stop corporate criminals you are one  
yourself  
in business with the Bin Ladens rich off of Enron  
Iraq building contracts to Cheney is dead wrong  
and Rumsfeld don't even know how a guns held  
let him fight his own battles faggot wouldnt shoot one  
shell  
but they'll recruit high-schools for young kids  
give 'em guns with lasers make them run up in some  
crib  
to take a hostage no rights in Guantanamo  
we onto those snakes, make them fall like dominoes  
cause now they talking 'bout delaying the election  
scare us with terror alerts and say it's for protection  
won't let the U.N. count the votes afraid cause we are  
destined  
to take away their power break away from their  
oppression  
tell those masons we aint with their segregation  
we want mind elevation, health care legislation  
worldwide medication, answers why they not  
interrogating  
Bin Ladens family just taking them back  
to the Saudi's then they hit us with the patriot act  
we want proof where's the truth start facing the facts  
where's the bombs that Saddam used to make in Iraq  
your either stupid or a liar start facing the fact, that...

[Hook]

You have no god, you have no armor

to defend your father who made this Osama  
been paid from Bin Ladens, Saddam and the Taliban  
so whose oil are you putting in your caravan? (2X)

[Slaine]

You know that I'm the type to fight I'm willing to brawl  
if it still isn't right we can kill 'em all  
we can go to war, with all these motherfuckers in the  
sand  
we can take it to the Saudi's now we make 'em  
understand  
the working class jerking that M-60  
but if I'm going out fuck it I'm taking them with me  
but tell me which lies, are the generated push lies  
from the reagan administration on down to these Bush  
guys  
manipulate the media, make it like you switched sides  
economics trickle down, greedier rich guys  
are tickled pink and it's sick to think  
while we eatin' chicken wings  
thinking how to stick the Brink's sicker things  
are happening it's not inside of my head  
we can't get Osama now so here's Saddam instead  
sand battle fields are bloody and they're rotten and  
red  
while Al Qaeda got a camera and there choppin our  
heads  
and this is your America mine has never been Oil  
Mr.Bush no we never made the president royal  
so put your crown on that ground  
the same ground that gave you your dollars and  
pounds  
rupels and your yen  
and look what you've created sir cause truly you are  
them  
there's a 911 america the president is them  
with his hand on the bible watch the devil in his sin  
when his blood spills know that he was never innocent,  
No!

[Hook 2x]

[Virtuoso]

Lemme explian why my heart is in pain  
you trade lives for loot and claim fair market exchange  
while my man from the block hit the marines at  
seventeen  
exposed his soul to horrible killings he's never seen  
lost more than fifty pounds trekking cross the desert  
ground  
Afghanistan he's soon to hit Iraq with heavy weapon

rounds  
yo E rep your town cause the bean for your back  
I'm just heated at the current regimes scheme of attack  
the president dodged drafts, drive drunk and sniffed  
cane  
and claim Clinton should have been impeached for  
dicking chicks brains  
they think insane and it's plain that their priorities  
stealing Florida by blocking votes from minorities  
they want police state authority, Nazi mind control  
conformity  
a world war like when we stormed Normandy  
Cheney's the brain he's doctor evil with a broke heart  
Bush senior runs the country junior couldn't run a go-  
kart  
they start wars and use our tax to but their bombs  
they're crazy rich from alcohol tobacco and firearms  
and Bin Laden ain't gon' never get handled man  
only wanted to build a pipeline through Afghanistan  
Osama's father launder more cash  
everytime we pour gas, while ghetto youth catch bullets  
in they poor ass  
how can we compete when their base is the elite?  
well I guess our only option is to take it to the streets  
the last thing we wanted was to reach a civil war  
but if our ass ain't living free, then what are we living  
for?  
the last thing we wanted was to start a civil war  
but if our ass ain't living free what the fuck are we  
living for?!?!]
