He's an evil man with a twisted mind  
He used his brain to clone humankind  
In his lab, his days are spent  
Collecting funds from the government

Forced into death .. Children on the table  
Forced into death .. Make them work if they're able  
Forced into death ..Now he's testing on your brain  
Forced into death .. Driving you insane

They treated Hitler's words as the words of god  
Justifying the lives that he robbed  
Joseph Mengele didn't care  
Rooms filled with teeth and human hair

Forced into death .. Children on the table  
Forced into death .. Make them work if they're able  
Forced into death ..Now he's testing on your brain  
Forced into death .. Driving you insane

America's not far behind  
From Mengele and Hitler's time  
Read about cloning in the news  
Think of what happened to the Jews  
Think about the total cost  
They killed the wives, they killed the children  
Remember those whose lives were lost  
To alleviate a "racial burden"?  
So the future won't repeat the past  
All your dreams and all you hoped for  
And the souls of the dead will forever last  
And no one else can close the same door

Forced into death - Driving you insane
