Visit "[Moment](#)" on MotoLyrics.com

I want to know the exact moment when I ran outta luck, I
want to know the exact moment when I decided to grow
up, but if I try hard, look deep inside, i'll find the fire
that never died, remember what I used to be, if it all
comes back it'll set me free, I'm sick and tired of being
rushed, i'm sick and tired of being pushed, I'm sick
and tired of no respect, i'm sick and tired, get of my
back! I want to know the exact moment when I decided
to get old, I want to know the exact moment when my
feelin's turned cold.
