"Perfect Place"

Visit "[Perfect Place](#)" on MotoLyrics.com

Ten million killed from criminals!
Ten million killed from war!
Ten million forced to live in fear!
And they'll send ten million more!
Well, it's so hard to believe that we ever had a chance
The world was such a perfect place if you've seen it
from a glace
Women on the corners
Children in the streets
Families in the welfare line and pregnant fuckin' teens
Ten million killed from criminals!
Ten million killed from war!
Ten million forced to live in fear!
And they'll send ten million more!
We're just a dying greed yeah, we're living off of greed
Completely blind and ignorant to everything we see
Our youth is like a timebomb waiting to explode!
With your mindless fuckin' brainwash
I'm hittin the fuckin road!
Go!
Well, it's so hard to believe that we ever had a chance
The world was such a perfect place if you've seen it
from a glace
Women on the corners
Children in the streets
Families in the welfare line and pregnant fuckin' teens
