"Straight From The Heart"

All that I can say is that "We'll be okay!"
We're gonna play some punk rock in the USA
We're gonna play it loud right from the start!
We're gonna tell the truth straight from the heart!
We never ever wanted to shock no one!
Yeah all we ever wanted was to have some fun!
Rock n' Roll from the USA
The most loyal group of kids in the world today!
Psychos, Rockers, Punx and Skins!
We're all in this together!
We'll stand til the end!
Well, I can feel it no pumpin' thru my veins!
Yeah I'll hold on tight and stand proud today!
Yeah a little rock n' roll will get me thru the night,
And on to work the next day but I feel alright!
We never set out to make a dime!
And we never asked you for your fuckin' time!
We're gonna fight! fight! fight! Just to unite!
We'll never kill! kill! kill! We're gonna start a riot!
Our Brothers and Sisters will be standin' tall!
We'll fly our flag! We'll never fall!
