"Us And Them"

Visit "[Us And Them](#)" on MotoLyrics.com

Well I'm not patriotic, I won't die for my country, Well there's no such thing as civil war, But no place I'd rather be, Well I hate our fuckin' government, there's no trust in our system, Well I hate the fact that we always think it's only us and them! My 21 years walkin' down this road I've spent a lot of time wondering what I'm gonna do to keep myself in line, I will not join the army, it's all milituous hype, I'm not too good with authority, I've never been the type! Well I've been around the country, and I've met a lot of kids, I know my rights, I've paid my dues and that's just the way it is!
