"We're Gonna Crash!"

Visit "[We're Gonna Crash!](#)" on MotoLyrics.com

When I left you on the bathroom floor,
I threw it all away
I should have never turned my back
Should have never walked away
You and me sunk the eight ball
It's time to fold our cards
Let's try and make it out alive
Before we go too far
Our ship is sinkin' way too fast
We're overboard
Maybe in the next life
We'll wash ashore
Our plane fell from the heavens,
We're fallin' fast
You know baby we'll hit rock bottom
We're gonna crash
All those times I hit the bullseye,
I fuckin' missed
I thought things would be different
But our lives can't coexist
We never worked together
I never could give in
The small things were important
And I thought that I could win
