Well I get up in the morning when I hear my little
rooster crow
Well I get up in the morning when I hear my little
rooster crow
You say you're gonna love me but honey I still don't
know

Well If you don't want to rock me I know a little girl who
will
Well If you don't want to rock me I know a little girl who
will
Well the way I want you, gonna sure enough fit to kill

Honey lets get some work done
Honey lets get some work done
Honey lets get, honey lets get, honey lets get some
work done
I can love you baby, we'll have lots of fun

Yeah you drivin' around town in your long black Coupe
DeVille
Yeah drivin' around town in your long black Coupe
DeVille
You shakin' that frame like it's powered by a pressure
drill

You got big brown eyes and long black shiny hair
You got big brown eyes, long black shiny hair
You spending more of my money than a Rockefeller
millionaire

Honey lets get some work done
Honey lets get some work done
Honey lets get, honey lets get, honey lets get some
work done
I can love you baby, all you want to do is rock

[Awww honey lets get some work done]

You say you gonna leave but I know you'll be coming
back

You say you gonna leave but I know you'll be coming
back
Yeah every thing I own in a 10 foot cotton sack

Honey lets get some work done
Honey lets get some work done
Honey lets get, honey lets get, honey lets get some
work done
I can love you baby, we'll have lots of fun

Honey lets get, Honey lets get, Honey lets get,
Honey lets get, Honey lets get, Honey lets get
Honey lets get some work done
I can love you baby, all you want to do is rock
