* Come on men let's abdicate, Let's suck back and take a break,

we've been Too long in the driver's seat, the (64) Shoes have now outgrown our feet.

it's (44) High time we changed our role, could be Women's turn to take control.

* now This idea might make us squirm, but a Softer grip can be just as firm.

Soon we will have settled in, (64) Saved from who we might have been.

(44) I'm not saying we'd live in peace, but i (64) Bet we'd see the odds increase.

* now Governing and passing laws, there's nothing here that's new,

Nothing that a modern woman (64) Hasn't learned to do.

* (44 so Come on men, here's the plan, we'll Jump out of the frying pan,

Clear the griddle, clear the stove (64) Stroll on down to the cherry grove

we'll (44) Pick some fruit, pack it home, we'll Bake a pie and we'll plant the stones

* Come on men, heed the call , let's vote Women to represent us all.

Soon we'll see this nation flower when (64) Women wield the hand of power,

and Soon they might tire of all the gripes and the grieving,

and they'll (44) Share the power, and we'll be Even.
