"Never Again"

Visit "[Never Again](#)" on MotoLyrics.com

Would you cry?
Would you beg to?
Every night and day
Will you swear you'll stay?

I know wat hope can bring
Watchin' you and everything
Use me and abuse me 'til I'm dry

Oh but life can bring all the air back to my wings
It's my affirmation
Watch me fly

I think it sounds familiar
I really need to know

Would you cry?
Would you beg to see me again?
Every night and day
Will you swear you'll stay 'til the end

No never again

Damn the heart can bleed
Losing all your dignity
I can't help but see the reasons why

And you seem to be
Begging for the help you need
Take this information do or die

I think it sounds familiar
I really need to know

CHORUS

No never again

CHORUS

Hard as I might try

I just can't stand by while you keep me
Don't want you to keep me away anymore

I just want my mind
And I don't want my time just to keep me
Don't want you to keep me
Don't want you to keep me away anymore

CHORUS

No never again
No never again
No never again
No never again
