Deep rooted this filthy desire of unholy domination
haunt us disciples of the goat
I'll let you know about my antichristian reality
This vocation of hate introduced me
As I already rule over by sin

How beautiful it is, to turn in ruin, rape and destroy
Everything that's supposed to be kind or holy,
Pure, innocent and inoffensive
Reducing those frail creations to mud, shit and limbs
Reducing those frail creations to mud, shit and limbs

The bowels of the pretended virgin whore
One by one it shall be fucked by the rapists' angels of
Satan

Introducing the celestial vulva
Ripping the cunt of the bitch
Those entrails that gave birth to the bastard son of God
Have to be soiled and burnt by torch to coteries the
wound by evil

Gutting the meat from the matrix of divine procreation
We have to be sure, you will not shit another messiah
of disillusion
We have to be sure, your cunt is all denied from the
protection of heaven
Gutting the meat from the matrix of divine procreation

And even if it would happen again...
Golgulta await your son, ready to crucify you're a new
born child

You know we exist, you know who we are
We are god creation too...
