(M. Spohn, R. Peinelt, A. Torkler)  
(from the album "InFormation", 1995)  
everyone underneath the sun has got something to say  
but keeping it just in they make it through each and  
every day  
they have got the fear inside to stand up and let it out  
but nothing will be changed at all if you don't dare to  
shout  
the mighty ones suppress and terrify to stop on top  
if we stay quiet and harmless then we can't change it  
up  
they banish their opponents and throw them in the  
tower  
they do just everything so that they don't lose any  
power  
start to fight for your right  
see the world in a different light  
change up things make your choice  
listen closely when you hear the voice  
you'll be broken if you just look away and do not care  
but you'll have to have the courage to stand up and  
dare  
revolution against the old and rusty men of war  
blow the dark clouds of fear away and break in every  
door  
chorus  
in a world where on every day so many people die  
someone's got to stand up at least we all must try
