This won't be a surprise to you

I guess giving up is the best that I can do

This is where it has to end

So, where do I start, tell me where do I begin?

Isn't there some place that you'd rather be

Spending your nights with the one that you need

Any fools knows what you're feeling for him

So I've got to swallow my pride

It's time we both said goodbye

Chorus:

You talk a little to much about Michael

I watch your eyes follow him when he walks in the room

You talk a little to much about Michael

'Cause if he's all that you have to talk about

I just know that he's all that you dream about

It's breaking my heart 'cause there is no doubt

You'd rather be with Michael

I could never, ever hate you

Time after time we've tried to work this through

So I'll try and make this as easy as can be baby

Since you don't want to stay but you don't know how

I know there's someplace that you'd rather be

Somebody's waiting for you patiently

Put aside all the guilt you may feel

'Cause your heart longs for the day

To go our separate ways

Chorus

It's taken all my strength

To be all the man I can be

I must accept the fact

That you will never, ever, ever, love me

Chorus
