I feel like a rocket
I miss your soul
All on my steps
And on her toes
She's like a comet
Nowadays
Maybe the facts
She finally space
Now what you have
Based on silhouettes
A piece of advice
I can't forget

What it is, I tell you what is is.
Been to easy been too slow
What it is, I love you cause it's dark
And I cannot accept that I cannot explode

I feel like a rocket
She misses your soul
There's a new comet
Comes and goes
I try to allow the chemistry
Make room for more
Than the strung in tree
Runnin over me feelin so much better
Than runnin overseas
Feel like me
Comin from the years
Spending so much faster now started out to care
I feel like

Tell you what it is, I tell you what is is.
Been to easy, been too slow
What it is I love you cause it's dark
And I cannot accept that I cannot explode

To the pressure over lies
Everything is all red, alright
Keep throwing those bitch into the shores
Always so good to me
Quiet eyes on her smiles

Make my day all red, alright
Keep throwing those bitch into the shores
Always so good to me
Always so good to me
