"The Longest Night"

Visit "[The Longest Night](#)" on MotoLyrics.com

V1)

On this night
You looked up at the sky to find
The answer to this prayer
What should I do with my heart tonight?
It's broken everywhere
Prech) You looked into my eyes that night at said I love
you
Now - we'll sit in silence too much to say
And this is the longest night

Ch)

Are you ever gonna feel the same way that I do?
Are you ever gonna hear the same lies and promises
Are you ever gonna know that I dreamed of us to be
You wanted it too, but not with me
Are you ever gonna feel the same way that I do?
Are you ever gonna hear the same lies and promises
Are you ever gonna know that I dreamed of us to be
You wanted it too, but not with me
But now you're someone else's girl

V2)

Take this time
To find the answers to your life
And leave me asking why
What should I do with my life this time?
You left me standing there
