"Beautiful Tonight"

Visit "[Beautiful Tonight](#)" on MotoLyrics.com

Have you ever walked to a crowded room?
Just to find that girl
That looking back at you
Have slay to my pride
Can I ask you one more thing?
What would you say if I kiss you tonight?

CHORUS

And I wanted you to know
Should I wonder where I'm now?
Will I find you again or become distant past
If I wanted to say that I look at you the same
If I pass this up
We become what could have been

On the playful game I struggle with tonight
And in our heads
We've lost the will to find
To match your name
With a feast
And I must say you look beautiful tonight

CHORUS
