Wait, I cannot believe
The things you said to me
When you were on that one night stand

Why, why you let me feel
And the way you pushed me down
When I'm coming up for air for the last time

III
You are that someone to pick up all the pieces
You left behind
And someday when there's nothing left to hide
Fight the words that take you back to mine
And when I said when you remember yesterday
Become songs that take us back
To our favorite memory

Stop, it's nothing left to say
You still in away
Did you ever think?
End up this way

Why did you ever let me down?
Did you ever take the time?
To listen to the songs I wrote about you
(Repeat III)

There's someone could find
What words meant tonight and if I will drive
To ends of the earth tonight
All is not well in paradise tonight
So I can't decide to be in your arms

And someday when there's nothing left to hide
Fight the words that take you back to mine
And when I said you remember yesterday
Become songs that take us back
To our favorite memory
