

Volt Son "Medication"

Visit "[Medication](#)" on MotoLyrics.com

Living on medication
Don't wanna know what I've done
Place to place, on the run
Living on medication

Living on medication
Wanted to slow the world down

Make a break concentrate on
Different solution
Realization waves of the soon to learn
Walking oil spill

Living on medication
Nothing can stop us now
Headed for the stratosphere
Living on medication

Destination set, engines on
Drop a to un jetstream

Make a break concentrate on
Different solution
Realization waves of the soon to learn
Pollution restitution
