Yo that shirt from Goodwill is really fucking tight
I bet your best friend thinks it's a good find
Honors classes don't mean shit, if you drop out of
college
And your link to the world, is your limited knowledge
I don't understand why you think it's alright
To be a fucking bitch every single night
Yeah you got used, didn't we all
But you didn't refuse, you need to install
Some anti-bitch software in your brain
Cause you played high school like a fucked up game

We all know it's true, your boyfriend couldn't fuck you
He's got a bent dick, that you proceeded to lick
And get him off, because, he's all you got
Him and his Porsche 944, BMW 3, it's cool
You're a hoe, you know what, you do
You're dating 6 foot 6 and you know
Everybody wants to kick you
In your teeth, but they wouldn't do much damage
To your fucking mouth, cause half your teeth done
already fell out
