Give me strength
Been walking for so long
When you're waiting for a sign
It never comes in time
There's no one
Feeling uninspired
I'm hanging out to dry
And there's no one.

I've seen it
I've breathed it
I've lived it all through this boulevard (x2)

Street lights, bright
I'm losing faith
I start to hesitate
To disassociate
Look for someone!
Just take me as I am
I'll take you as you are
Give me someone

I've seen it
I've breathed it
I've lived it all through this boulevard (x2)
