Into rotten carcasses  
A ravage through the flesh  
Endless skin dismemberment  
A work in guts and blood

A masterpiece of morbid surgery  
Mutilated corpses destroyed once again

Blood starts to coagulate  
Remove the severed bodies  
Replace the broken limbs  
Experiments in guts and blood

Creations spawned from suffering  
The dead are now the living  
Brought back to life  
Rebirth of the grotesque

A masterpiece of morbid surgery  
Mutilated corpses destroyed once again
