Eternal Trail Of Corpses

Fallen empires, funeral world

Human's supremacy, forgotten dreams

From chaos, the world was born

World disorder, reign in anarchy

Total carnage, cannibalised ferocity

From chaos, the world will die

An eternal trail of corpses

Dissident minds, past the edge of sanity

Worldwide plague, religious rape

All in gods name, a world in suffering

An eternal trail of corpses

An eternal trail of corpses

Final desecration, human annihilation

Fanatic warriors, glory through suicide

All in God's name, the world is dead
