Scavenging The Slaughtered  
Bursting skin, crawling maggots  
Feasting in dismembered remains  
Human flesh painted in scars  
Infected cuts, razors grind

Massive violent slaughter art  
Penetrate through rotten skin  
Unrestrained obsession for blood  
Gory rituals, killing spree

Empty eyes, extinguished for eternity  
Drained from life, without identity  
Murdered without remorse or pity  
Human killing pleasure, slaughter insanity

Sadistic feast in bloodless flesh  
Crawling maggots born to eat  
Rotten skin, bones decay  
Hair nails teeth all that remain

Empty eyes, extinguished for eternity  
Drained from life, without identity  
Murdered without remorse or pity  
Human killing pleasure, slaughter insanity
