Nobody talks about her anymore  
They all have thoughts they hadn't before  
Relief and peace is what they need  
And requires someone to bleed

Malleus Maleficarum  
Converted her differency to her doom  
Burned at the stake  
An innocent look in her face

She didn't do no harm  
Never to hurt anyone  
Envy and hate...  
To misfortunous fate

Malleus Maleficarum  
Converted her differency to her doom  
Burned at the stake  
An innocent look in her face

Nobody talks about her anymore  
Relief all have thoughts they hadn't before  
Relief and peace is what they need  
And that required someone to bleed
